

Private Pilot Ad-On Outline

Stage 1

Stage 1 will include all pre-solo requirements and practice in advanced maneuvers. Maneuvers include Maximum performance takeoff, steep approaches, quick stops, hover auto-rotations, straight-in auto-rotations and governor off operations.

If flying a Robinson helicopter, requirements for the SFAR 73 safety checkout will be completed by Lesson 16

Stage 2

Stage 2 will prepare the student for solo operations, off-airport operations, night traffic pattern operations, hazardous flight conditions and emergency procedures.

Stage 3

Stage 3 will include cross-country training, emergency procedures and maneuvers, solo cross country, solo practice and preparation for the FAA private pilot check ride
